Our Response to the Impact of Coronavirus

Please know that there is nothing more important to us than the health of our patients and staff. The recent global outbreak of the COVID-19 (Coronavirus) has now spread to New England, and we would like to advise everyone to observe all fundamental precautions to limit the contagion as much as possible.

While some visits, such as post-op appointments, need to be done in person, we now offer **telemedicine appointments** – a scheduled video chat with your physician. Contact us for more information or to schedule an appointment at 860.728.6740 - email info@ctortho.com

TAKE HEALTHY PRECAUTIONS

- Wash your hands often with soap and water for at least 20 seconds
- Cover your cough or sneeze with a tissue and then throw the tissue away
- Stay home from work if you're sick
- Avoid touching surfaces in public
- Try not to touch your face
- Avoid people who seem visibly sick

STAY AT HOME WITH SYMPTOMS

- Fever
- Runny nose
- Cough
- Shortness of breath
- Flu-like symptoms

[CONTACT US](#)

Our office locations (Bloomfield, Enfield, Springfield Ma) will remain open so we can continue to care for you. We proactively increased our sanitization protocol beyond our already high standards of safety. If you, or anyone who accompanies you, arrive for your scheduled appointment and are visibly symptomatic, Advanced Orthopedics New England reserves the right to refuse treatment and reschedule you for a later date in order to protect other patients and our staff.

Our Walk-in Urgent Care Centers in Bloomfield and Enfield are closed until the end of March and we will reassess at that time.

ENFIELD OFFICE
 Mon-Fri 9am – 5pm
 113 Elm Street, Suite 302, Enfield
 (860) 728-6740

BLOOMFIELD OFFICE
 Mon-Fri 9am – 5pm
