## Benefits to service at home:

- Services/care provided in the privacy and comfort of one's own home (familiar surroundings)
- Keeps loved ones/family together
- Individualized Care – Tailored to individual needs in one's own environment. One on one care
- In-home care facilitates individuals in remaining as functional and independent as possible, providing a much higher sense of security and dignity. Patient-centered care that encourages family involvement focused on getting well and staying well
- Reduces anxiety and stress
- Promotes healing and provides more safety from infections
- Less costly
- Receiving home health care helps to reduce unavoidable readmissions to the hospital, and studies have shown that patients recuperating from illness, injury, or surgical procedures heal more quickly and more successfully when recovering at home versus in a medical facility
- Accelerated recovery
- Reducing acute care hospital readmissions
